

COMMONWEALTH OF PENNSYLVANIA
OFFICE OF THE GOVERNOR
HARRISBURG

THE GOVERNOR

GREETINGS:

It is my pleasure to welcome all those gathered for the 4th Annual Women in Science Symposium.

Pennsylvania is shaped and strengthened by the character and leadership of extraordinary women. This event recognizes that this commonwealth – and indeed our nation – thrives when all people are included. This symposium dedicates itself to showcasing the professional and life experiences of distinguished female science and environmental leaders. The stimulating conversations and active engagement with STEM professionals available at this event will undoubtedly bring women together to build relationships and encourage attendees to pursue careers, exchange ideas and make lasting connections. I am confident that this symposium and those gathered will create positive change in the commonwealth and inspire others for years to come.

As Governor, and on behalf of all the citizens of the Commonwealth of Pennsylvania, I am honored to welcome all those gathered for the Women in Science Symposium. Please accept my best wishes for a memorable event and continued success.
